

**Keeping Our
Communities Safe**

Their Eyes Never LieSM

Mobile, Wireless and Hand Held Offender Recognition and Information System

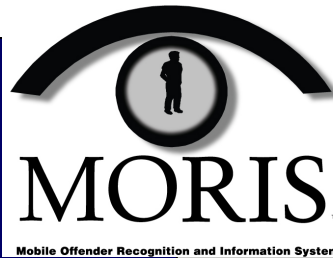

Affordable

MORIS™ - BI2 Technologies' hand held, Mobile Offender Recognition & Information System — gives you the wireless ability to Positively Identify offenders enrolled in your local or BI2's national database in seconds — from any location where there is cell service supporting Internet connectivity.

MORIS™ includes access to SORIS™ (Sex Offender Registry and Identification System) and I.R.I.S.™ (Inmate Recognition and Identification System).

MORIS™ is ideal for identifying previously enrolled:

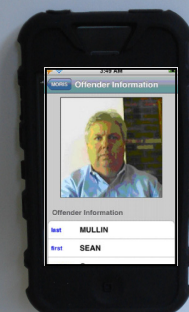

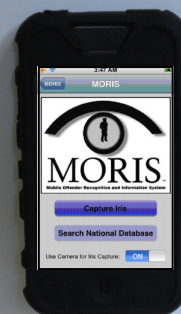

- **Sex Offenders**
- **Illegal Immigrants**
- **Gang Members**
- **Individuals with Outstanding Warrants**
- **Parolees and Probationers**

Mobile Offender Recognition and Information System
